## ABOUT ME

To Get an Opportunity where I Can Make The Best of My Potential and Contribute to the Organization Growth

## WORK EXPERIENCE

[ 08/2022 – 10/2022 ]

### Internee (Pathology Department)

#### Combined Military Hospital

**City**: Quetta

- Conducted detailed blood sample analysis, interpreted lab results, and provided accurate diagnoses and treatment plans.
- Collaborated with a multidisciplinary healthcare team, including hematologists, pathologists, and nurses, to ensure comprehensive patient care.
- Implemented and adhered to stringent quality control measures in the laboratory to maintain the highest standards of accuracy and reliability in diagnostic testing. Ensured compliance with all relevant regulations and protocols.

[ 01/2023 – 06/2023 ]

### Internee (Pathology Department)

#### Benazir Bhutto Hospital

**City**: Rawalpindi

- Conducted thorough and precise blood sample analysis, utilizing advanced laboratory techniques and equipment to assess hematological parameters. This included complete blood counts (CBC), coagulation profiles, malaria parasites, Semen and ESR testing, ensuring accurate and timely diagnostic information.
- Expertly interpreted laboratory results, including blood smears, malaria parasites tests, to identify and diagnose a wide range of hematological disorders. Maintained a high level of accuracy in diagnosis, facilitating prompt patient treatment.
- Provided patients and their families with clear and empathetic explanations of their hematological conditions, treatment options, and potential side effects. Offered emotional support and resources to help patients navigate their medical journey with confidence.

[ 08/2023 – 10/2023 ]

### Internee (Pathology Department)

#### National Institute of Health Sciences

**City**: Islamabad

- As an intern at the Pathology Department of the National Institutes of Health (NIH), I played a vital role in over a rewarding three-month period, I actively contributed to various aspects of pathology work, gaining hands-on experience and insight into the following responsibilities:
- Specimen Handling
- Data Analysis
- Laboratory Techniques
